SPI-3 — District Summary (2016–2026)

Single-point Open-Meteo series · identical for all 9 tehsils · gridded rainfall (IMD/CHIRPS) NOT used in this project

(a) Monthly SPI-3, district-wide series

Locator

(b) Summary

District mean	+0.30
Minimum	-2.23 (May 2019)
Maximum	+2.98 (May 2025)
Months ≤ −1 (moderate+)	13 / 130 (10%)
Months ≤ −1.5 (severe+)	9 / 130 (7%)
Months ≤ −2 (extreme)	3 / 130 (2%)
Period	2016-01 to 2026-10

Source: Open-Meteo archive; Gamma fit, baseline 1991-2020 (config). Gridded IMD/CHIRPS rainfall was NOT used - one point covers the whole district, so no spatial SPI-3 choropleth exists.
